## **Support for refugee Ukrainian musicians by the State Music Council Brandenburg**

The Brandenburg State Music Council is the most important umbrella organization for all music matters in the amateur and professional sectors in our state of Brandenburg.

We are appalled by the barbaric war of aggression in Ukraine and would like to do our part to help Ukrainian refugees.

We would like to be a point of contact that enables interested Ukrainian musicians to get in contact with music schools and music societies, choirs and orchestras.

Please contact us.
